100 Questions for Qi Men Dun Jia

A collection of clear question prompts for consultations, decisions and content.

WORK · MONEY · RELATIONSHIPS · TIMING

How to use this guide

Qi Men Dun Jia is a traditional Chinese system used to look at a specific situation, timing and direction of action. The quality of a reading depends on the clarity of the question.

1	**Narrow the question** Replace “What will happen at work?” with “Should I accept this role before the end of the month?”
2	**Add context** Include the options, time frame and desired outcome. This makes the analysis more practical.
3	**Keep themes separate** Do not combine money, relationships and relocation in one chart. Ask separate, focused questions.
4	**Keep the choice yours** A chart offers another perspective. Important medical, legal and financial decisions require qualified professional advice.

About the collection

This guide is an editorial collection of common client questions informed by publicly available consultation materials. The prompts were written for this PDF and are not a search-volume ranking.

Use one prompt as a starting point, then adapt it to your actual situation.
